

Pro'Stimul

Digestive tract optimized

The horse is subjected to major physiological disrupt resulting:

- Drop of performances
- Degradation of general condition
- Behavioral disorder
- Stress
- Gastric ulcers

Pro'Stimul has an effect on mycotoxins are natural contaminants of many foods of plant origin, included cereals.

Pro'Stimul is concentrated of highly performant ingredients and digestibles from fermentation technologies, containing of live yeast *Saccharomyces cerevisiae* Sc 47, mannans and B-glucans.

Pro'Stimul is a natural solution of metabolic activation of horse :

- Optimizes the assimilation of ration
- Improving fibers digestion
- Favour the instestinal (digestive tract)
- Prevents the growing pathogenic agents

Composition

Wheat remilling, yeast cells (*Saccharomyces cerevisiae*)

Analytical components

Crude protein	21 %
Crude ash	14,16 %
Crude fat	4,83 %
Crude cellulose	4,01 %
Sodium	<1 %

Additives

Digestibility enhancers

4b1702 *Saccharomyces cerevisiae* CNCM I-4407 200x10¹⁰ UFC/kg

Binder

1m558i Bentonite 100 000 mg/kg

Flavouring compounds

2b Mixture of flavouring compounds 4%
(including Milk Thistle, Ginkgo Biloba)

Other

PX Santox 20 %

Direction of use

Pro'Stimul is to be mixed up with the feed, as follow: (1 dosage = 40 g)

. In prevention : 40 g/day in continous.

. Dose-intensive : 80 g/day during 2 months.

The simultaneous use of orally administered macrolides should be avoided.

To be kept away from heat and light.
Feed supplement for equine.

Packaging

Bucket of 2kg . AE008
Bucket of 10kg . AE008-1
Bucket of 25kg . AE008-2
